- Degree: Bachelor of Science

Coursework includes:

- General Computer Programming
- Linear Algebra, Calculus, and Vector Math

QUALIFICATIONS & SKILLS

- Proficient in Java, Python, C, C++
- .NET Experience (MVC Framework)
- Strong knowledge in User Interfaces
- Strong Object Oriented Programming (OOP) Skills
- Expertise with Android SDK and XML
- Comfortable in Windows, Mac, and Linux
- Agile and Test Driven Development
- Expertise with JQuery, AJAX, JSON, Javascript, HTML, and CSS

WORK EXPERIENCE

Web Development Internship: j2 Global Communications, Goleta, CA

June 2013 – September 2013

- Created a web application in Grails (Groovy on Rails) framework to maintain tracking pixels
- Performed daily scrum meetings to promote improvement and communication
- Created an awesome user interface which was really easy to use
- Had to code both front and back end of my project in HTML, CSS, JavaScript, JQuery, AJAX, JSON, Groovy (Java), GSP, and SQL
- Updated the tracking pixels' file through Subversion's Java (SVNKit) based on the user's specific request such as to create, edit, or delete a tracking pixel

Customer Service: UCSB Residential Halls, Santa Barbara, CA

June 2011 – August 2011 & June 2012 – August 2012

- Maintain clean and safe living area in the student's dormitory building
- Provide college students with custodian assistance

PROJECTS

- Grails web application called "Pixel Editor Maintenance Tool"
- Android Applications:
 - FBT**: Social network aggregator application for the Android platform involving Facebook and Twitter using Java the Android SDK for a networking class
 - My Profit Wizard**: Stores profits made from personal sales & adds up your total profit to display to the user. Users have the option to create, edit, view, or remove a profit event.

HONORS AND ACTIVITIES

- I am Bilingual (English and Spanish) and an Excellent Gamer! (I love games)
- Earned the Southeast Community Development Corporation Scholarship in 2009
